Cut out along outer dotted line. Fold along various fold lines to determine the cumulative influence of multiple subdivisions of opposites. To use; think of something... anything... ask yourself which words describe it best. Start with Fold One; is it more investive or divestive? Move on to Fold Two; is it more Left Brained or more Right Brained? Move to Fold Three; is it more penetrative or more receptive? Keep folding the paper down with each selection, until you arrive at a single Quintagram that you can then locate on the web site <http://www.palmpoints.com/guy/BookTrees.html> and read more about...
